

New Castle County is seeking a summer intern to perform stormwater best management practice ("BMP") maintenance inspections and investigate streams for blockages and obstructions. These inspections will be performed in accordance with a standardized checklist and entered into a database. These BMPs are located throughout the county in private and public lands and are required to be inspected once per year. Work is largely independent. For additional details or to make application, please contact Michael Harris of the NCC Department of Special Services [302-395-5806](tel:302-395-5806) or mharris@nccde.org.
